Personal Profile.

I am a passionate and enthusiastic worker who has the ability to work well under pressure, with extensive knowledge in a range of design mediums. I am currently studying my Masters of Multimedia to further develop my skills. My previous experience as a freelance designer has allowed me to gain fundamental skills in design, 3d, post-production and motion graphics. I am able to work in teams (large or small) alternatively I have the ability to work independently and can take initiative when needed. I am eager to learn and able to work in a friendly team environment. The ability to learn new software and tasks comes with ease, and I feel that this skill is imperative to a potential employee.

My portfolio is available online at www.savvatsekmes.com, where you are able to see a large variety of my work which includes, 3D modeling, motion graphics, web and print design.

Attributes.

I am proficient in a variety of software, which includes advanced knowledge of the Adobe suite such as Photoshop, Illustrator and Flash. I also have great familiarity of programs used for video editing/compositing, including Premiere Pro, After Effects and Final Cut Pro.

My skills are also highly developed in intricate 3D Modeling Programs such as Maya, ZBrush and Mudbox. These skills are advanced over both Mac and Windows platforms.

Skills.

Technical Skills:

3D

Maya
Zbrush
Mud box
3ds Max (learning)

Design

Photoshop
Illustrator
InDesign
Flash

Video editing

Responsible
Good Team & Individual working habits
Hardworking

Employment History.

I have undertaken a range of free-lance projects, which have developed into strong video, print, online and motion graphic skills. I have created a range of promotional material including flyers, business cards, websites and 3D models.

For many of these freelance projects I have taken on board, I am required to maintain regular client contact to update information, whether that be seasonal changes, or product updates.
